ABSTRACT

This learning module for a 12th-grade course in communications technology is designed to help teachers lead students through typesetting and laying out a brochure using Pagemaker and other computer programs on a Macintosh computer. The module contains eight competencies, a description of its content, suggested instructor methodology, worksheets for brochure production, a list of resources, pre/post tests, evaluation checklists for students and instructor, and sample brochures. Desktop Publishing Module

ACTIVITY:

You will design and print a (3) panel (2) fold brochure, utilizing both electronic publishing (Pagemaker) and computer generated graphics.

LEVEL:

High School Vocational Graphic Arts Level 4

COMPETENCIES:

1. Development and design
2. Problem solving
3. Production of Roughs / Comps / and a finished design
4. Equipment selection and utilization
5. Production of (computer assisted) camera ready layout
6. Dark room expertise and knowledge
7. Printing Mastery utilizing offset principle
8. Trimming and folding knowledge

CONTENT:

You will be using the textbook Photo Offset and research the units on formal and informal layouts concerning brochures. The placement of elements - the Type families and styles pertinent to design - Art work, either computer generated or clip art scanned.

You will research the proper sequence of assembly of elements including word processing, halftone photos and rules, borders and boxes.

Your research includes the proper use of software application via computer assistance vs phototypesetting.

METHODOLOGY:

Examples of a formal single color, three panel, printed both sides brochure will be provided for examination.

A work sheet listing procedures will be handed out to each student

A demonstration using Microsoft word and aldus pagemaker, along with support applications, (Templates, Draw, Paint, Impact, Smart Art) and the laser scanner will be given by the instructor.

Student practice with applications using text flow, text wrap, and element placement as prescribed by Aldus Classroom series.

Demonstrate to other students any new application.

Microsoft word & Mac Draw software applications will be used to augment the process. Demonstrations will be given by the instructor.

Student practice with applications using text flow, text wrap, placement of art etc, as prescribed by pagemaker useage booklet.

Demonstrate to other students any new application.

WORK SHEET:

(3) Students for group

1. Recieve customer order, clarify problems/concern
2. Brainstorm solutions and have customer approve these.
3. Set up Mac SE using formal guidelines found in text or to customers order. (brochure layout).
4. Using Microsoft word set text for brochure, include chosen typestyles / headings / fornt required.
5. Using scanner include photo into proper location.
6. Place borders as specified on assignment sheet.
7. Include rules and boxes as prescribed.
8. Flow text into designated locations.
9. Edit for corrections.
10. Print proof copy for instructor and customer.
11. Acquire customer approval for printing.
12. Print required number of brochures using previous learned offset process.

RESOURCES:

Refer to:

Pagemaker (tutoral Help)

Microsoft word (tutoral Help)

Review Aldus Educational application book on auto flow / text wrap

EVALUATION:

✓
Based on group evaluation, instructor evaluation and customer satisfaction.

Implementation November 1989.

Instructor Module Evaluation Criteria

Grade _____

Student Name: _____

Date: _____

When completed your project will be evaluated utilizing a grading scale from 1 -3

1 = poor

2 = good

3 = Excellent

- ☐ The student understood the desktop publishing objectives as stated in the Module.
- ☐ The student contracted with a customer and carried out the job order to the module specifications.
- ☐ The student used the proper design and layout technique to produce the project
- ☐ The student demonstrated proper technique in computer assisted programming process
- ☐ The registration is within a 1/64 inch tolerance
- ☐ The placement of elements are according to proper specifications
- ☐ The student demonstrated proper use of the darkroom and film processing
- ☐ The student demonstrated proper stripping technique and registration.

- ☐ Proper platemaking technique was used
- ☐ The student followed all pre - press procedures and technique
- ☐ The student demonstrated proper press operations when running the job
- ☐ The proper use of the trimming cutter and folding machine was demonstrated both to the instructor as well as visible in the finished product
- ☐ The student dealt with the customer relations by showing a proof and personally delivering order to the customer window

PRE/POST TEST

SCHOOL _____ DATE _____

CLASS _____

DIRECTIONS:
READ EACH QUESTION BELOW AND PLACE EITHER AN (A) (B) (C)
IN THE BRACKET BY EACH NUMBER QUESTION.

A = Complete Knowledge B = Some Knowledge C = No Knowledge

- () 1. I am knowledgeable on Desktop Publishing principles and processes enough to produce a 2 fold 3 panel brochure to a customer satisfaction.?
- () 2. I understand the terms Roughs/ Comps/ and Finished designs?
- () 3. I can operate (without assistance) the Macintosh SE computer?
- () 4. I can identify and utilize with ease the aldus pagemaker program?
- () 5. I have a working knowledge of the darkroom processes. (halftone & line negs)?
- () 6. I have a working knowledge in stripping up and registration processes?
- () 7. I understand and have a working knowledge in the platemaking and developing processes, in regards to additive and subtractive plates?
- () 8. I have a working knowledge concerning pre- press and actual press operations?
- () 9. I have a working knowledge in the finishing processes such as trimming, folding, collating, stitching and binding processes and procedures?
- () 10. I have a basic knowledge of working with customers and the public?

(CONTINUED)

My knowledge concerning the following (11 through 17) is

- () 11. Formal/Informal layouts
 - () 12. Type and type styles and families
 - () 13. Art and design (clip art) included
 - () 14. Rules - Borders - Boxes - Circles etc.
 - () 15. Halftones and Halftone Photography
 - () 16. Diffusion Transfers
 - () 17. The chemistry used in developing of Process Photography?
-
- () 18. I have a basic knowledge and understanding of the phototypesetting equipment and copyfitting processes?
 - () 19. I have a working knowledge of the software program Mac Draw?
 - () 20. I have a working knowledge of the software program Micro Soft Word?
 - () 21. I have a working knowledge of the software programs of Images with Impact Click Art, Smart Art 1 -2 -3 and other import programs supportive of Aldus pagemaker?
 - () 22. I have a working knowledge concerning the Formal/Informal techniques of the placement of elements within a project or job.
 - () 23. I have a working knowledge of the layout processes for borders, column size, headline size, etc?
 - () 23. I have a working knowledge of the processes of imposition?

Desk Top Publishing Brochure Worksheet

(3) Students to a group

1. Receive the customer order for a brochure layout, to be proofed and produced. Clarify all concerns and questions or problems you can think of before accepting the project.
2. Brainstorm solutions and have customer (Instructor) approve these.
3. Set up the Mac SE using formal guidelines found in the Classroom series of pagemaker (brochures)
4. Open up the microsoft word processing file and set the computer to guidelines and margins required.
5. select all type styles from your rough layout so you can utilize them during your word processing.
6. word process all information available including headlines, titles, captions.
7. Save all word processing in your personal file.
8. Open up the pagemaker file and select the brochure template.
9. Set all margins and parameters required to place text and or elements.
10. Now from the menu select auto flow and text wrap to be placed into the template.
11. After this is accomplished, you can then review your layout on the screen and edit or make additions and deletions. At this time you can add borders, rules and lines as well as placing the clip art into their respective locations, Your halftone can now be scanned and placed.
12. You should now save your job to your program name and also print one copy on the laser writer for a proof.
13. Check with instructor for approval.

Producing the brochure

(Printing)

1. You can paste into your layout any halftone diffusion transfers that must be included.
2. Now make a good negative using all previous learned methods and process.
3. Develop to the scale that is set to the density of the camera.
4. Now strip up the negative into the goldenrod sheet making sure of principles concerning registration.
5. You can now make a subtractive plate, remember to use both sides of the plate.
6. Now set the multi 1250 for 8 1/2 x 11 and select your stock
7. make sure you check your press chemistry for Ph and contamination of fountain or ink tray
8. Run a few copies and check registration of the joggers and locations of folds.
9. Run the specific number of copies to fill the order plus extra for the finishing processes.
10. After allowing to dry, trim to the specifications and set up the folder to finish the project.
11. quality control and cull out all unsuitable brochures prior to packaging.
12. Turn in copies to instructor for grading.

EDUCATIONAL PHILOSOPHY

We believe:

1. That children are different and develop physically, mentally, and emotionally according to a pattern unique unto themselves.
2. That children grow at a continuous rate.
3. That children grow better under a pleasant atmosphere in which successes are stressed rather than fear of failure.
4. That children face common developmental tasks when he/she reaches the appropriate maturity level.

We shall:

1. Accept children for what they are - help their growth from within - not without.
2. Help children develop a love and appreciation for the American way of life.

We desire:

1. To determine each child's abilities and interests.
2. To develop each child to his/her fullest potential within the limits of his/her abilities, interests, and inner drive.

BUILDING GOALS 1990-1991

1. To review the Assertive Discipline Program at Arbor Vitae-Woodruff School and modify programming needs, as necessary, using input from parents and staff.
2. To review the student recognition programs at Arbor Vitae-Woodruff School and evaluate the progress of the School Store Project.
3. To establish a committee of AV-W staff and community members to study and recommend ways to improve school-community relations to the building principal.

SCHOOL PROGRAM

Arbor Vitae-Woodruff School is a K-8 school with current enrollment of 400 students. Our curriculum has been developed with input from parents, staff, board, and student efforts. AV-W School is a member of the Lakeland Area Curriculum Project which reviews and revises curriculum area on a yearly schedule. Curriculum offerings are comprised of basic skills and various activities including band, choir, technical education, art, computer education, home living skills, and health education. Co-curricular activities include forensics, track football basketball, wrestling gymnastics, and volleyball.

SPECIAL PROGRAMMING

Arbor Vitae-Woodruff School has taken pride in the efforts shown by staff, parents, and AV-W Board Members to assist all children in the district to reach their full potential. Efforts to accommodate students with special needs has been a priority. Programming in the area of special education, high achievement, Chapter I Reading, and Student-at-Risk are available at AV-W School. The AV-W Board of Education has approved and supported the implementation of an Early Childhood Program at AV-W. The Lakeland Area Schools Early Childhood Program was located at AV-W in the fall of the 1989-90 school year.

COUNSELING SERVICES

Arbor Vitae-Woodruff School works with parents, families, and school personnel to coordinate a counseling program to meet the needs of the school population. Mr. Randy Wendt and Mrs. Joanne FitzPatrick coordinate the counseling services at AV-W School. AV-W School operates a multifaceted program to assist students to deal with current pressures from society and peers. Positive self-concept and problem solving strategies are incorporated into the counseling services at AV-W School. Individual and group sessions are available to help students with peer relationships, health concerns, alcohol and drug abuse in the family, suicide prevention programs, and death and dying. Counseling services are available and may be requested by parents or guardians.

PARENT TEACHER CLUB

The Arbor Vitae-Woodruff Parent Teacher Club is an active part of AV-W School. Parents, teachers, and community members work together to coordinate efforts on behalf of the children at AV-W School. Members of the P.T.C. plan and organize fundraising events and activities to support educational programs, coordinate parent volunteers in the classroom and school setting, assist with Early Childhood and Kindergarten Screening, and support and participate in school-sponsored activities. Regular monthly meetings are held and new members are always welcome to attend.

EDUCATIONAL PHILOSOPHY

We believe:

1. That children are different and develop physically, mentally, and emotionally according to a pattern unique unto themselves.
2. That children grow at a continuous rate.
3. That children grow better under a pleasant atmosphere in which successes are stressed rather than fear of failure.
4. That children face common developmental tasks when he/she reaches the appropriate maturity level.

We shall:

1. Accept children for what they are - help their growth from within - not without.
2. Help children develop a love and appreciation for the American way of life.

We desire:

1. To determine each child's abilities and interests.
2. To develop each child to his/her fullest potential within the limits of his/her abilities, interests, and inner drive.

BUILDING GOALS 1990-1991

1. To review the Assertive Discipline Program at Arbor Vitae-Woodruff School and modify programming needs, as necessary, using input from parents and staff.
2. To review the student recognition programs at Arbor Vitae-Woodruff School and evaluate the progress of the School Store Project.
3. To establish a committee of AV-W staff and community members to study and recommend ways to improve school-community relations to the building principal.

SCHOOL PROGRAM

Arbor Vitae-Woodruff School is a K-8 school with current enrollment of 400 students. Our curriculum has been developed with input from parents, staff, board, and student efforts. AV-W School is a member of the Lakeland Area Curriculum Project which reviews and revises curriculum area on a yearly schedule. Curriculum offerings are comprised of basic skills and various activities including band, choir, technical education, art, computer education, home living skills, and health education. Co-curricular activities include forensics, track football basketball, wrestling gymnastics, and volleyball.

SPECIAL PROGRAMMING

Arbor Vitae-Woodruff School has taken pride in the efforts shown by staff, parents, and AV-W Board Members to assist all children in the district to reach their full potential. Efforts to accommodate students with special needs has been a priority. Programming in the area of special education, high achievement, Chapter I Reading, and Student-at-Risk are available at AV-W School. The AV-W Board of Education has approved and supported the implementation of an Early Childhood Program at AV-W. The Lakeland Area Schools Early Childhood Program was located at AV-W in the fall of the 1989-90 school year.
